# SECRETARY MODDY'S STATEMENT REFUTED

Record Shows That Tariff on Anthracite Was Not Smuggled Into the Act.

VEST DEBATED THE POINT.

Madison, Wis., that the duty of 67 cents per Madison, Wis., that the duty of 67 cents per readily recognizes his affliction, but ton on anthracite coal "was smuggled into too often does not the tariff act in a sneaking and cowardly realize its seriousties. Constipation 1 to e1f causes sleepless attracted attention and comment ness, weakness, bare.

TARIFF ON COAL. There has always been a duty on bituminous coal and for many years prior to 1863 there was a duty on anthracite, varying from \$1.75 per ton, under the act of 1842, to 50 cents per ton under the act of 1866, the latter rate continuing until the passage of

was made, however, in the rate on faturations.

By the act of 1872 bituminous was reduced to 55 cents per ton, which rate was continued until reduced to 45 cents by the act of 1894, known as the Wilson act. The larguage employed in the several acts, to sether with the classifications, were preserved until the Pingley act, which provides that bituminous coal "and all coal containing less than 52 per cent of fixed carbon" should pay 67 cents per ton.

NOT SMUGGLED IN,

NOT SMUGGLED IN. The free list was made to meet this hange in phraseology in the dutiable list y making the cont paragraph read: "Coal, by making the comparagraph reat: "Conf. authracite not specially provided for in this act." It is the opinion that it would be difficult for Secretary Moody to make good the allegation that the duty of \$7 cents on anthracite coal "was smuggled into the tariff in a sheaking and cowardly manner."

In reporting the bill the Ways and Means In reporting the bill the Ways and Means Committee retained the language, as well as the rate of the McKinley act, but when it reached the Senate the change was made on motion of Senator Allison by direction of a majority of the Finance Committee and the proposition was debated in the Senate at considerable length. At the beginning of the debate on the amendment the following colleguy occurred:

Mr. Allen "What is the necessity for taxing coal."

been imposed upon bituminous coal. The present duty is 40 cents a ton, which is here increased to 67 cents.

here increased to \$\tilde{s}\$ cents.

DOES NOT PROTEST.

Mr. Allen: "Mr. President, I call attention of the Senator from Iowa and of the Senate to the fact that the duty on coal does not protect that is, it does not protect the class of people who are supposed to be protected by a tariff of this kind. There are constant strikes in the coal regions of the United States. And it seems to me the grimmest kind of sarcasm for my distinguished and honorable friend from Iowa to say his tax is imposed for the purpose of protecting the coal miner. There is nothing upon the face of this earth in the nature of inw that can protect him unless there shall be a revolution in the sentiment of the American people. Why, under those circumstances exclude coal from elsewhere and lovy upon the poor people of the Alantic seaboard and other portions of the United States a tariff in addition to the original cost of coal and compel every freside in three million and a haif homes in the United States to pay tribute to a few owners of coal mines. There is no sense in it, there is no excuse for it; there is no reason to support it excepting the bare reason that friends are to be rewarded in a bill of this kind."

VEST'S ARGUMENT. DOES NOT PROTEST.

bill of this kind."

VEST'S ARGUMENT.

Mr. Vest, to prevent any possibility of misunderstanding, asked if anthracite coal was not included in the amendment. Mr. Ailison replied: "On coal containing less than 32 per cent of fixed carbon the duty proposed is \$1 cents a ton."

Mr. Vest: "That puts a duty upon anthracite coal. Mr. President, I wish to inquire, if I may, respectfully, why this duty is imposed. According to the statistics of imports and exports we exported from this country in 1896. 5.71.728 worth of anthracite coal, and we imported in all \$145.23 worth. We exported in the same year of bituminus coal. \$4.528.81s worth, and imported \$2.527.75 worth I shruld like to inquire if we exported from the country nearly \$6.00.000 worth of anthracite coal and brought in but \$250.000 worth, why we should not this duty upon anthracite coal? This whole movement is in perfect harmony with the entire tariff scheme, and that is to exclude a superior foreign product in order to force the American consumer to take an inferior one and put mency in somebody's pocket when it ought not to go there. The increase upon coal is a wrong and outrage.

"Under the 40-cent tax of the Wilson act the coal interests of this country have prospered as much as any other interest. There has been general depression, and, of course, the coal interests of this country have prospered as much as any other interest. There has been general depression, and, of course, the coal interests of this country have prospered as much as any other interest. There has been general depression, and, of course, the coal interests of this country have prospered as much as any other interest. There has been general depression, and, of course, the coal interests of our country have prospered as much as any other interest. There has been general depression, and, of course, the coal interests of his country have prospered as much as any other interest. There has been general depression, and, of course, the coal interests of his country have prospered as much as any VEST'S ARGUMENT.

Mr. Vest then quoted Mr. Harrison of California, representing the coal interests, who said the coal producers wanted but 40 cents a ton. "And yet," said Mr. Vest, "the committee gives 67."

# TO BUILD OAKLAND **BOULEVARD AT ONCE**

Property Owners Decide to Call Upon World's Fair Management for Assistance.

CITY FUNDS NOT AVAILABLE.

Plans Are Announced for Building a Mammoth Fraternal Hotel to Resemble an Exposition Palace.

Owners of property on Oakland boulevard from Clayton to Skinker roads met yester. day afternoon at the office of L. L. Hull. No. 804 Chestnut streets, and decided that the building of the boulevard skirting the World's Fair site on the south shall not be delayed. The Exposition management will be called upon to bear a share of the expense until municipal funds are available. A committee, composed of George H. Small, Mrs. Anna Sneed Cairns, James E. | their residence since the last \* Fogg and Richard A. Boyle, was appointed to confer with the Exposition management Mr. Allen. "What is the necessity for taxing coal."

Mr. Allison: "The same necessity that there is for a tariff hill, to protect and care for the coal producers of our own decountry, and to provide revenue from duties on the coal imported. There has I believe, always been a duty upon coal. This is with the exception of one or two inscances, a lower duty than has generally been imposed upon bituminous coal. The

"Oakland avenue from Clayton road west to the city limits has been dedicated," said Mr. Boyle after the meeting, "but we do not propose to wait until the city provides the funds before beginning the boulevard

the funds before beginning the boulevard construction. Under the law the municipality will have to bear a considerable part of the expense in the end, but meantime, for the Exposition's benefit as well as for our own, we do not want to postpone making the Southern boundary of the World's Fair grounds an ideal street."

More than three-lourths of the property on Oakland adjoining the Exposition site was represented at the meeting, and the owners were unanimously in favor of constructing the boulevard at once. The work is to conform to city regulations and he of the very best class of street improvement. Grass plots, granitold sidewalks and a driveway of Teilord or some other substantial paving will be laid. The property owners hope to have construction begin in a few months.

BIG HOTEL PLANS.

BIG HOTEL PLANS.

Building improvements were discussed, and it was decided that unsightly structures must be kept off Oakland boulevard. While a few temporary hotels will be permitted the agreement was that they must be artis-

the agreement was that they must be artistic in appearance.

Richard A. Boyle and James E. Form stated, as representatives of the United Improvement Company, that the hotel which the syndicate proposes to build will be quite as ornate as the World's Fair buildings. In fact, it is to form part of, or at least will harmonize with the Exposition picture. The plans have been drawn in the office of Isaac Taylor, the World's Fair Director of Works. The hotel will occupy a site near the southern entrance.

Mr. Boyle east that his company was preparing to increase the capital stock to \$20,000, and that all the money needed has been secured. The Travelers' Protective Association and the secret orders blentified with the movement to build the Temple of Praternity are stockholders in the botel project.

Fraterinty are stockholders in the both project.

"Our syndicate has a lot fronting 660 feet on Oakland boulevard," said Mr. Boyle, "and the hotel probably will occupy the sutire front. It will not be over three stories high but will cover an immense amount of space and will contain several thousand rooms. In appearance it will resemble the Exposition palaces, the exterior being treated with staff."

The secret orders interested in the hotel have a combined membership of millions, and this fact alone is believed 40 assume the success of what will be the first great World's Fair hotel.

CIVIC LEAGUE BUTTONS OUT. More Than One Thousand Now

Ready for Members. Thomas B. Stucker, manager of the membership department of the Civic Improvement League announces that the buttons for members are now ready. The button is five-eighths of an inch in diameter and circular in form. On the button is a monogram, "C. I. L.," in blue-enameled letters, with while background, encircled by a rim of gold.

The buttons are made with acrew backs for gentlemen and class pins for fadies. Orders have been placed for more than 1,000 buttons, and Mr. Sturges reports that he will be compelled to order another thousand to meet the demand made for the buttons.

FRIEND'S VISIT SAVES HIM. Doctor John McH. Dean Thinks Robbers Were Desperate.

Doctor John McH. Dean of No. 319 North Grand avenue believes that he would have been assaulted by robbers Sunday afternoon had not his friend Doctor J. R. Papin paid him an unexpected visit and frustrated the plans of two desperadoes.
Doctor Dean was alone in his office when a roughly dressed stranger entered and inquired for Doctor Freeland J. Donn. a dentist, whose office is in the same building. The man stated that he was from Louisiana, and believed he was a relative of Doctor Dunn.
While Doctor Dean and the stranger were talking another man entered and complained of being ill. Doctor Dean took him into his private office where the first man was The actions of the two atrangers attracted Doctor Dean's attention, one of the two men stepping behind him, when Doctor Papin without announcing himself walked into the office.

The sick man immediately became well and the two strangers disappeared. Doctor Dean later discovered that a full microscopic outfit, worth file, had been stolen. He reported the theft to Chief of Police had not his friend Doctor J. R. Papin

### The Public Protected.

Judge Wing of the Federal Court of Cieveland, it is reported, has just issued a permament injunction, with tosts and damages, enjoining another manufacturer from the making and selling of an imitation of Cascarets.
This manufacturer imitated the boxes, the
shape of the tablets and used a similar
sounding name. This decision is to be commended. Any dealer who will offer a substitute when Cascarets are called for does
it for persunal gain. Cascarets are popular,
having been freely advertised. They are always packed in metal boxes, with the longtail "C" on the cover and each tablet
stamped "C. C." They are never sold in
built or from jars. The public is cautioned
against an imitation or substitute of this
meritorious medicine. If at any time a substitute has been aftered when CASCARETS
have been asked for, it would be well to
write direct to the Sterling Remedy Cr.
New York or Chicago, setting forth the
facts.
